

JICA GRASSROOT PROJECT
CAPACITY BUILDING FOR ANALYSIS AND REDUCTION
MEASURES OF PERSISTENT ORGANIC POLLUTANTS IN SERBIA
- www.globalgreengroup.org -

Belgrade, May 19, 2015

Dear colleagues,

We invite you to visit **7th Symposium: Chemistry and Environmental Protection**, which will be held at Palić, in the complex "Elitte Palić" from June 9-12, 2015 and to take participation in a **round table between Japan and Serbia** titled: "**Environmental protection without boundaries**". The roundtable will be held on **June 10th, 2015 from 15:30-17:30h at hotel "Elitte Palic"**.

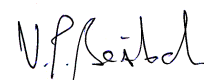

Participants of the round table from Japan are members of the Japan International Cooperation Agency - JICA grassroots project: Capacity Building for Analysis and Reduction Measures of Persistent Organic Pollutants in Serbia.

- *Prof. dr. Takeshi Nakano*, Osaka University - Center for Advanced Science and Innovation and Hyogo Environmental Advancement Association
- *Prof. dr. Hideyuki Inui*, Kobe University, Research Center for Environmental Genomics
- *Prof. dr. Kiwao Kadokami*, Kitakyushu University
- *Dr. Yasuhiro Kanda*, Hyogo Prefectural Institute of Environmental Sciences (director)
- *Dr. Katsuya Yamamoto*, Hyogo Prefectural Institute of Environmental Sciences
- *Ms. Aya Iwabuchi*, Kobe University.

At the meeting dr. Kanda will give a presentation titled "A Local Initiative for Managing Environmental Risk". A special focus on the round table will be given to strengthening the capacities in the field of environmental protection, education, and establishing cooperation between scientific and educational institutions from Serbia and Japan.

We believe that by your presence and participation in discussions you will contribute to the success of this meeting.

Best regards,

dr Vladimir P. BEŠKOSKI,
Assistant professor
Project coordinator for Serbia
